INTERNATIONAL ASIA
**VETERINARY
CONFERENCE
& EXHIBITION**
2024 | 13-15 AUGUST
HONG KONG
Hong Kong Asia World Expo Hall 2

Attendees can expect to hear from renowned veterinary professionals, researchers, and thought leaders who will share their valuable experiences and the latest advancements in veterinary medicine. A detailed list and profiles of the confirmed speakers can be found in the attached **“Speakers Profile”** and on the IAVC website.

Comprehensive conference program

The programme schedule for IAVC 2024 is packed with **enlightening keynotes, panel discussions, and technical sessions led by renowned experts**, incorporating a wide range of the latest advancements in veterinary medicine, technology, and best practices within the veterinary field. Key sessions will cover topics such as anaemia, thrombocytopenia, haematology, vector-borne diseases, gastrointestinal disease, orthopaedics, neurology, endocrinology, infectious disease, internal medicine, surgical, pulmonary hypertension, companion animal behaviour, tele-radiology, emergency, critical care, oncology, marketing, management, and more. A detailed programme schedule can be found on the <https://www.iavc.asia/agenda>.

Continuing Professional Development (CPD)

Attendees can earn Continuing Professional Development (CPD) points when they attend the event to support career advancement while expanding veterinary expertise. “IAVC 2024 is a must-attend for anyone serious about staying at the forefront of veterinary medicine. It offers high-quality educational opportunities and comprehensive exchanges with global experts. The event aligns with our mission to foster collaboration and innovation in veterinary practices,” said Dr. Pauline Taylor, BVM&S, MACVSc, Director of Pets Central Veterinary Academy & Pets Central Veterinary Network.

IAVC 2024 is expected to welcome over **3,000 Western and Asian veterinary professional peers, industry partners, and potential collaborators** from across the region. This conference serves as a platform for fostering collaboration, sharing best practices, and exploring innovative approaches to veterinary medicine.

THE END

PetsCentral Veterinary Academy Limited (PCVA)- IAVC Organizer

PCVA is the education arm of Pets Central Veterinary Network. Its mission is to provide well-rounded veterinary and animal care education. It has developed courses to support veterinarians, veterinary support staff, and pet parents. PCVA has been running a successful series of courses since 2010 in collaboration with the Hong Kong Federation of Youth Groups. The lectures introduced the roles in animal care of veterinarians, veterinary assistants, receptionists, customer service and pet parents. In 2018, PCVA started a lecture program with Vets Central, an online tele-vet and education platform that supports veterinarians who want to learn and get practical advice from U.S. and E.U. veterinary specialists.
